GUIDELINES FOR UCEAP COURSES

UCEAP courses may be applied toward...

• Major Core or Elective Courses

Students interested in satisfying a specific UCLA Psychology course (e.g., Cognitive Psychology) must petition this to the UCLA Psychology Department by presenting the most recent syllabus or detailed course description for pre-approval. Courses from other departments (e.g. COM SCI, NEUROSC, etc.) must be petitioned with that respective department.

OTHER NOTES

• Lab Courses

Unique at UCLA and challenging to get approved, but students can attempt to petition nonetheless.

• Fieldwork/Research Courses

Unique at UCLA and challenging to get approved, but students can attempt to petition nonetheless as long as the course is cognitive science-related and unpaid.

• Students are not restricted to taking courses in their major abroad. You may also consider courses abroad to satisfy GE, minor, foreign language, and upper division requirements.

TERMS ABROAD

Study abroad is possible as early as summer after your first year, as late as summer after your last year, and anywhere in between. On the other hand, the UCLA Psychology Department recommends studying abroad after being declared Cognitive Science Major standing.

Start planning now to determine which term is best for you!
