

## ***UCLA IEO Supplemental Personal Statement for Capacity Constrained Programs***

Please answer the following three questions in a 1-2 page double-spaced personal statement and submit your response as a PDF on the UCLA IEO Intake Form. Some programs may already ask for a personal statement in their application checklist; this would be a *supplemental* statement that the UCLA IEO will use to nominate students for programs that have a higher demand than capacity. Students applying to programs that require this supplemental statement are not selected on a first-come, first-served basis. They will be informed within six weeks after the application deadline on whether they have been nominated. A strong academic fit carries the most weight in our review.

1. Describe how the academic offerings of this program align with your UCLA degree requirements. What specific action(s) have you taken to ensure courses abroad will satisfy these requirements?
2. Academics aside, why have you chosen this particular study abroad program and destination?
3. How does participating on this program fit into your personal and professional goals?
